

Music development plan summary:

Crockham Hill CE Primary School

Overview

Detail	Information
Academic year that this summary covers	2026-2027
Date this summary was published	June 2026
Date this summary will be reviewed	June 2027
Name of the school music lead	Kate Gray
Name of school leadership team member with responsibility for music (if different)	
Name of local music hub	Kent music hub
Name of other music education organisation(s) (if partnership in place)	

This is a summary of how our school delivers music education to all our pupils across three areas – curriculum music, co-curricular provision and musical experiences – and what changes we are planning in future years. This information is to help pupils and parents or carers understand what our school offers and who we work with to support our pupils' music education.

Part A: Curriculum music

This is about what we teach in lesson time, how much time is spent teaching music and any music qualifications or awards that pupils can achieve.

Curriculum - At Crockham Hill Primary School, we use the Charanga Primary Music Scheme across the school.

Our scheme of work fulfils the statutory requirements of the National Curriculum (2014). The National Curriculum for Music aims to ensure that all pupils:

- Perform, listen to, review and evaluate music across a range of historical periods, genres, styles and traditions, including the works of the great composers and musicians.

- Learn to sing and to use their voices, to create and compose music on their own and with others, have the opportunity to learn a musical instrument, use technology appropriately and have the opportunity to progress to the next level of musical excellence.

- Understand and explore how music is created, produced and communicated, including through the inter-related dimensions: pitch, duration, dynamics, tempo, timbre, texture, structure and appropriate musical notations.

The intention is first and foremost to help children to feel that they are musical, and to develop a life-long love of music. Each class teacher uses the scheme and adapts it to ensure every child can access and enjoy music within our school. Sequencing and progression are clear.

We explore music through the inter-related dimensions of music: performing, listening, composing, the history of music. We focus on developing the skills, knowledge and understanding that children need in order to become confident performers, composers, and listeners.

Children will develop the musical skills of singing, playing tuned and un-tuned instruments, improvising and composing music, and listening and responding to music.

How This Subject is Taught

Music is taught using the new Charanga creative scheme of learning. Charanga is a progressive program that enables pupils to reflect and build on their musical knowledge and skills. Years 3,4 and 5 are taught in their year groups by the music lead. Year 6 will have the opportunity to learn the ukulele. (Awaiting to hear about funding)

This scheme is taught from Reception to Year 6.

Pupils are now familiar with the structure of music lessons and know the high expectations set by staff.

In addition to Charanga, each Key Stage have weekly 25-minute singing assemblies, led by members of staff. These include music appreciation and learning and performing songs in unison, using makaton signs and in multi-parts.

Planning and Coverage

The new Charanga Musical creative School Scheme provides teachers with week-by-week lesson support for each year group in the school. It provides lesson plans, assessment, I can statement, clear progression, and engaging and exciting whiteboard resources to support every lesson. The Scheme supports all the requirements of the national curriculum and Development Matters. Each academic year is broken into 6 units of work (1 per half term), each divided into 6 progressive steps.

Each unit is designed to take approximately six weeks, often focused on a specific song, piece of music or art work. The material presents an integrated approach to music where games, the dimensions of music (pulse, rhythm, pitch etc), singing and playing instruments are all linked.

Each Unit of Work focuses on the strands of musical learning which correspond with the national curriculum for music:

1. Listening and Appraising

2. Musical Activities

a. Warm-up Games

b. Optional Flexible Games

c. Singing

d. Playing instruments

e. Improvisation

f. Composition

3. Performing

The Creative Charanga Musical School Units of Work enable children to understand musical concepts through a repetition-based approach to learning. Learning about the same musical concept through different 3 musical activities enable a more secure, deeper learning and mastery of musical skills. The teacher can plan and provide the opportunity to embed a deeper learning, knowledge, understanding and skills.

- Teachers have been using Charanga in the progressive sequence which results in pupils being able to make links between skills.
- A variety of instruments are being used to support children's development.
- Music is a timetabled subject, with schemes of work and assessment in place. All students can access this curriculum from EYFS to Year 6 which ensures the progression of skills and knowledge throughout each year group.
- Pupils with SEND can participate and progress well (supported by technology, tools and instruments), which enable music lessons to be fully inclusive for all pupils.
- Every child is entitled to learn to play a tuned instrument. Teachers are supported in their instruction of glockenspiels through Charanga, and further tuned tuition is also available through the local music service.

Music in EYFS

We teach music in Foundation Stage as an integral part of the topic work covered during the year and as part of the specific area, Expressive Arts: Being Imaginative, identified in the Foundation Stage Framework (2014). We relate the musical aspects of the children's work to the objectives set out in the Early Learning Goals (ELGs). Music contributes to a child's personal and social development. 'Counting Songs' foster a child's mathematical ability and songs from different cultures increase a child's knowledge and understanding of the world.

Adaptation

We recognise that there are children of widely different musical abilities in all classes, so we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. We achieve this in a variety of ways by:

- Setting open-ended tasks which could have a variety of responses.
- Setting tasks of increasing difficulty (not all children complete all tasks).
- Grouping children by ability in the room and setting different tasks to each ability group.
- Providing resources depending on the ability of the child.
- Using classroom assistants to support the work of individuals or groups of children.

SEND

We will strive to remove barriers to learning for pupils with SEND. Adopting a positive and proactive approach will ensure that children with SEND are able to express themselves and take an active part in lessons. Explicit instructions and scaffolding will enable all pupils to achieve and succeed in music.

Resources

We have a range of percussion instruments, which are stored in the school music room:

- Large percussion instruments
- Selections of instruments from other cultures
- Xylophones & glockenspiels
- Keyboard & piano
- Songbooks and Christmas production packs
- CDs
- Music stands
- Recorders

Part B: Co-curricular music

This is about opportunities for pupils to sing and play music, outside of lesson time, including choirs, ensembles and bands, and how pupils can make progress in music beyond the core curriculum.

Music Tuition in Lesson Time:

Our extra-curricular offering includes singing lessons, woodwind lessons and piano tuition, which also provide children with experience of learning an instrument and making music. An increasing proportion of pupils are involved.

Our weekly singing assemblies offer the opportunity for children to experience singing within a mixed-age environment; this enables us to give experience of unison singing, part-singing and vocal harmony.

There are regular performing opportunities for our children; these range from in-class 'mini concerts' to instrumental ensemble concerts attended by parents.

Music also plays an important part in a range of multi-cultural events throughout the year, when our children have the opportunity to both experience music performance and participate using instruments from a range of cultures

Part C: Musical experiences

This is about all the other musical events and opportunities that we organise, such as singing in assembly, concerts and shows, and trips to professional concerts.

In addition to planned curriculum time for music, children also have additional musical experiences, sometimes as a whole school, sometimes individually, which occur during the school year and contribute to the overall planning and time allocation for music. Each year, our children in Years 4, 5 and 6 have the opportunity to rehearse for and attend Young Voices, a massed choir event culminating in a concert for family and friends. These are held nationally in large arena venues and provide the children with the opportunity to work with professional musicians, learning and making music together with other schools. This opportunity is extremely popular and offers a deeply enriching musical experience for our older children.

Across all key stages, children have a range of opportunities to take part in musical performances, such as Harvest celebrations, Christmas plays and nativities.

Our KS2 children also have the opportunity to participate in an end of year show.

Our musicians perform in school concerts throughout the year, which enables the opportunity to share work that has been developed during instrumental lessons.

The overall provision is diverse, valuing all musical styles, genres and traditions equally; this is reflected in the clubs and enrichment programme and drawing on the skills, talents and interests of staff and local stakeholders through specialist tuition. Parents and carers actively support music making, through support at events and through home learning.

In the future

This is about what the school is planning for subsequent years.

Develop the music curriculum which enables non-music specialists the confidence to teach progressive musical skills. CPD and capacity planning - plan CPD for classroom teachers to increase confidence in singing in the classroom and delivery of curriculum music - our focus this year will also extend to improving ways in which progress within curriculum music is assessed.

Develop and integrate digital and technology. Shifting towards modern music-making by introducing computer-based composition and digital tools

Fundraising - proactively try to find additional funding for music (e.g. PTA, fundraising in school from performances etc.)

To further develop the department's offer of adaptive instruments for those with hand / arm difference or disability.

Pupil Premium - update the register of Pupil Premium children engaged in extra-curricular music activities; review budget and ensure equality of provision for children who cannot afford to access paid-for provision.

Explore the possibility of inviting secondary school Choirs/ musicians to Crockham Hill school to perform for our children, to further our children's musical aspirations for the future and to be inspired.
